

PREMIUM DIESEL

Sprague has sold premium diesel fuels to the Northeast for decades, providing quality products and exceptional service at convenient locations. In 1989, Sprague began offering RoadForce[®], a fuel with added components that **improve the life and performance** of your diesel engine.

Originally embraced given its ability to lower the cold weather operability of engines, customers have come to realize that the additional additives deliver **year-round performance benefits**.

Since 1870

Sprague provides refined product retailers, wholesalers and end users a complete menu of asset-based energy products and services. We own a network of 15 refined products terminals with a combined storage capacity of >8.2 million barrels and market product through an additional 50 locations throughout the Northeast. We sell 30 million barrels of fuel annually.

RoadForce[®]

Premium Diesel Fuel

Sprague's RoadForce[®] actively works to keep fuel systems cleaner and free from harmful deposits. Together, the product's components deliver engine protection, reduced maintenance cycles and reduce winter kerosene requirements - in summary, **lower cost with improved efficiencies.**

SUPERIOR DETERGENTS

Removes pre-formed deposits, minimizes exhaust emissions and improves fuel economy while restoring lost horsepower

CORROSION INHIBITOR

Forms a protective barrier on metal engine components and helps to improve engine lifespan

FUEL STABILIZER

Reduces gum and sediment formation which is common following extended fuel storage

DEMULSIFIER

Reduces water-related problems - helps excess water drop out and slowly removes water from tank bottoms which could harm injectors

WAX CRYSTAL MODIFIER/DEICER

Reduces dependency on power-robbing kerosene, improves cold-weather operability for diesel engines and helps to prevent the formation of ice crystals in fuel

SPRAGUE REAL-TIME

RoadForce[®] can be purchased via Sprague's online transaction portal, Real-Time, allowing you to see live pricing, place bids and manage all of your purchases
